

KALA POINT TREE REQUESTS, 2019

LIST OF REQUESTED TREE ACTIONS, 2019 CENTRAL SECTOR (generally listed from N to S)

Requester & Case/ Manager(s), # trees	Tree Number	Tree Type	Requested Action	Objective	Recommendations (Geotech; see report for details)
Schneider #1, Gerard (Titus), 17 trees	C19-1 #1	Douglas Fir, 50'	Skirt up	Restore water view.	
	C19-1 #2	Douglas Fir, 40-50'	Thin (selective)	Restore water view.	
	C19-1 #3	Douglas Fir, 50-60'	Skirt up	Restore water view.	
	C19-1 #4	Douglas Fir, 50-60'	Skirt up	Restore water view.	
	C19-1 #5	Douglas Fir, 50'	Skirt up	Restore water view.	
	C19-1 #6	Douglas Fir, 50'	Skirt up	Restore water view.	
	C19-1 #7	Douglas Fir, 50'	Window on N. side	Restore water view.	
	C19-1 #8	Douglas Fir, 50'	Trim lower branches, N. side	Restore water view.	
	C19-1 #9	Madrona, 40'	Remove L (N) fork, trim lower R (S) side	Restore water view.	
	C19-1 #10	Madrona, 50'	Remove lower branches R (S) side	Restore water view.	
	C19-1 #11	Douglas Fir	Thin (selective trim)	Restore water view.	
	C19-1 #12-#17	Douglas Fir, 7 trees (12A & 12B)	Skirt up or thin (selective trim), added after original submission	Restore water view.	
Titus/Thompson #2 Machette, 12 trees (4 removals)	C19-2 #1	Pacific Yew, 15 ft	Retop, trim branches <3" diameter	Restore view of PT.	
	C19-2 #2	Douglas Fir, 8" diam., 30 ft	Remove #2	Restore view of PT.	Removal allowed by Geotech Report
	C19-2 #3-4	Western Red Cedars, 4-6" diam., 40 ft.	Leave #3 and #4, do selective trimming for view.	Restore view of Mt. Baker	2 removals disallowed by Geotech Report, changed to trimming.
	C19-2 #3-7	Western Red Cedars, 4-6" diam., 30 ft, clump of 3.	Remove #5, #6, #7.	Restore view of Mt. Baker	3 removals allowed by Geotech Report. Discovered when inspected, added to this version.
	C19-2 #8	Douglas Fir, 20" diam., 120 ft	Window ca. 10 branches	Restore view of Indian Isld. 40' above MHHW.	
	C19-2 #9	Douglas Fir, 20" diam., 120 ft	Window ca. 12 branches	Restore view of Indian Isld. 40' above MHHW.	
	C19-2 #10	Douglas Fir, 18" diam., 140 ft	Skirt up, prev. skirted up	Restore view of Indian Isld. 40' above MHHW.	
	C19-2 #11	Salal, Oceanspray, deciduous trees, Himalayan BB	Trim shrubs to 30" height. Trim tree branches <3" diam, eliminate BB	Sustain water view across lot.	
C19-2 #12	Western Red Cedar	Skirt up	Restore view of Indian Isld.		
Dybeck #3, Winfrey, 7 trees (5 removals)	C19-3 #1	West. Red Cedar, 16" diam., 70 ft	Skirt up	Restore view of Port Townsend.	
	C19-3 #2	Madrona, 12" diam., 40'	Remove dead tree	Restore water view.	Removal allowed by Geotech Report
	C19-3 #3	Douglas Fir, 14" diam., 60 ft	Remove	Restore water view.	Removal allowed by Geotech Report
	C19-3 #4	Douglas Fir, 14" diam., 60 ft	Leave, instead do selective pruning to open up view	Restore water view.	Removals disallowed by Geotech Report, changed to trimming.
	C19-3 #5	Western Red Cedar, 16" diam., 50 ft	Remove	Restore water view. Right of #4.	Removal allowed by Geotech Report
	C19-3 #6	Western Red Cedar, 18" diam., 60 ft	Remove	Restore water view. Behind #7.	Removal allowed by Geotech Report
	C19-3 #7	Western Red Cedar, 16" diam., 50 ft	Remove	Restore water view. In front and right of #4, #5. Closest to home.	Removal allowed by Geotech Report
Gooding #4, Love, 9 trees	C19-4 [#1]	View line at top of Whidbey Island	Not a tree	Restore water view below this line.	Ignore, not a tree.
	C19-4 #2	Douglas Fir, tall & mature	Skirt up lower (<7) branches	Restore water view of Port Townsend	
	C19-4 #3	Western Red Cedar, tall & mature	Previously skirted, removed new growth (reskirt)	Restore water view of Port Townsend	
	C19-4 #4	Western Red Cedar, tall & mature	Previously windowed, remove new growth and expand window 8 ft up and down	Restore water view of Port Townsend Bay	
	C19-4 #5	Western Red Cedar, tall & mature	Previously skirted, removed new growth and skirt up four whorls	Restore water view of Port Townsend and Whidbey Island	

KALA POINT TREE REQUESTS, 2019

	C19-4 #6	Douglas Fir, tall & mature	Previously skirted, removed new growth and skirt up four whorls	Restore water view of Mt. Baker.	
	C19-4 #7	Pacific Yew	Selective trimming, bush-like shape now.	Open up to get original view of Port Townsend and Whidbey	
	C19-4 #8	Hemlock, tall & mature	Previously skirted, removed new growth and skirt up four whorls	Restore water view of Mt. Baker	
	C19-4 #9	Hemlock, tall & mature	Previously skirted, skirt up 3-4 whorls. On Gerard's lot (#55)	Restore water view of Mt. Baker	
	C19-4 #10	Hemlock, tall & mature	Previously skirted, skirt up not to exceed 60/40 bole/crown ratio.	Restore water view of Mt. Baker	Shown on C19-5 photograph owing to view angle.
Gerard #5, Love, 6 trees	C19-5 #1	Western Red Cedar	Retop and selective trimming for view	On crest of bluff, sustain water view. Previously topped, on ledge.	
	C19-5 #2	Madrone	Skirt up (remove lower branches <3' diameter)	On crest of bluff, sustain water view.	
	C19-5 #3	Western Red Cedar	Skirt up by removing regrowth (two clusters)	On ledge of bluff, sustain water view.	
	C19-5 #4	Douglas Fir	Selective trimming for to open up view	On ledge of bluff, pistol butt trunk. Sustain water view.	
	C19-5 #5	Hemlock	Skirt up (remove 6 ft of lower branches)	On top of bluff, sustain water view.	
	C19-5 #6	Douglas Fir	Skirt up (remove 6 ft of lower branches)	On top of bluff, sustain water view.
